

PORT OF GRAYS HARBOR  
PROFESSIONAL SERVICES ROSTER  
INCLUDING ARCHITECTS, ENGINEERS, AND SURVEYORS  
REQUEST FOR QUALIFICATIONS

Pursuant to RCW 39.80.030, the Port of Grays Harbor is inviting statements of qualifications and performance information from firms interested in providing services as architects, engineers and surveyors (A&E) in conjunction with Port sponsored projects. This request for qualifications will include work at Port's Marine Terminals, Upland Industrial Properties, the Westport Marina, Port Recreational Properties, and Satsop Business Park all of which are owned and operated by the Port of Grays Harbor.

Qualification and performance statements will be reviewed and placed on file (roster). Statements will be used as a source from which to select qualified firms for individual projects. Due to the ongoing nature of the projects throughout the year, consultants not selected will not be notified.

Submittals are considered active for three years. Firms are responsible for re-applying or updating information before expiration to avoid removal from the roster.

Additional Information is available on the Port's website [www.portoggraysharbor.com](http://www.portoggraysharbor.com) (About Us/Contracting with the Port).

Interested parties should request submittal instructions by contacting the Port of Grays Harbor at [jshay@portgrays.org](mailto:jshay@portgrays.org) or 360-533-9528.
